MACKEREL CATCHES
REAL HAILSTORM
OPPOSES SURGERY

By Arthur Brisbane

(Copyright 1930 By King Features

asked farmers to cut down on wheat
production.Paul Reynaud, French Minister
of Finance, wants all nations, espe-
cially the United States, to reduce
production of all kinds, "rationaliz-
ing industry."International co-operation to
prevent overproduction is his rem-
edy.American industrialists who sup-
port the "plant less wheat" program
don't like the idea of producing less
steel, fewer automobiles, radio sets,
etc.TWENTY-TWO BOATS brought
1,050,000 pounds of mackerel into
Boston recently. The fish sold for 4
cents a pound wholesale. Some day
men will get rid of fish destroyers,
sharks, small whales that devour
millions of salmon, etc., as farmers
have gotten rid of wolves that de-
stroy their sheep.Then a small part of the ocean
will be enough to feed the whole
human race unless middle-men
should decide to throw overboard
rather than sell cheaply.Hailstones six inches in diam-
eter fell recently in Bulgaria,
killed five, including two chil-
dren on their way to school.
Boats are missing in the Black
Sea.Imagine millions of small
sized old fashioned cannon balls
falling from the sky, and you
can imagine such a hailstorm.DOCTORS TOLD JUSTICE
HANSON, in New York, that a 13-
year-old boy, name not revealed,
must die unless an operation was
performed.The mother would have no op-
eration. Her son might be dying,
but she had no right to "interfere
with the Lord's plans. If He wanted
to take the boy back, He had a right
to him."Justice Hanson, deciding that the
Lord had no such plans, ordered an
operation, in spite of the mother,
and the boy will recover.THE ATTITUDE OF THE mother,
strange to us, in 1930, would
have seemed natural some time ago.
When the use of anesthetics was
first introduced in England, the
clergy almost without exception,
denounced it, saying the Lord wanted
us to suffer and doctors had no
right to make patients unconscious
and free from pain while their less
were being cut of. That was cheat-
ing the Lord.A young Scotch doctor pro-
duced the right answer, advis-
ing clergymen to read in Gen-
esis how "the Lord caused a
deep sleep to fall upon Adam"
before he took out his rib.Since the Lord had operated
on Adam, first making him un-
conscious, the young doctor said
he had the right to do the same.
He won.A noble woman and a mid-
wife were both put to death be-
cause the midwife had en-
deavored to diminish the woman's
pains in childbirth.AT THIS TIME OF year, in
many places, you see on the ground
young birds, feathers not fully
grown, wings very weak.It is a time to keep cat indoors,
and tell small boys that to injure
such a bird is a cowardly as it
would be to hurt a baby too young
to walk.

Staff Correspondent For The News
COLUMBUS, July 19.—With only
three weeks to go until the voters
wend their way to the polls to select
their party nominees another week
turned out to be so quiet politically
that the approval of plans for the
new state office building and the
announcement that contracts would
be awarded in September took
precedence over any other news
that came out of the statehouse
and the various other state offices
that are scattered about the capital
city.With approval of the state office
building specifications and the an-
nouncement that contracts were let
for a \$489,256 physical education
building and a \$307,697 natatorium
at Ohio State and that the uni-
versity would let contracts in Sep-
tember for a new \$450,000 high
school building, Columbus was ex-
pressing its gratitude to the state
for pushing a five million dollar
construction program that will give
work to between 500 and 1,000 men.**Need More Property**
Only two more pieces of property
are needed for the actual site of
the new \$3,997,748 building and the
attorney general's office is said to
have condemnation proceedings
papers ready in case the final ne-
gotiations for the property fall
through.Attorney General Gilbert Betti-
man already has 13 parcels of prop-
erty for the actual building site. The
remainder of the ground needed for
park purposes will be obtained later.
The apparent p. n. act most Re-
publican candidates not to exert
themselves in view of a lack of pre-
liminary opposition was continued
this week, while the candidates in
the several Democratic contests
continued to poke about at each
other and the various issues.**Democrats Are Busy**
The Democratic activities of the
week included:George White, Democratic candi-
date for governor today assailing
the increasing expenditures of the
present administration and what he
termed the dawning balance of the
state general revenue fund. Earlier
in the week White in a state-
ment declared opposition to both
proposed income and sales taxes
and to any other form of tax-
ation until the tax on intangibles
had been tried.Charles V. Truax, candidate for
the Democratic nomination for
United States Senator, accused
President Hoover of betraying ag-
ricultural interests. Before a meet-
ing of Democratic women the Bur-
cyrus candidate said the president
was ridding himself of his critics
by appointing them to foreign posts.INJURIES FATAL

GIVEN BY JURY
IN DEATH CASEJefferson Contractor To
Die In Electric Chair
On October 29JEFFERSON, July 19.—Tibby
Smith, 26-year-old trucking contri-
butor, was found guilty of murder in
the first degree without mercy, by a
jury here last Friday.Only 35 minutes was required to
get the verdict. The verdict carries
an automatic penalty of death in
the electric chair.Smith's conviction was for the
killing of his wife, Clara, 28, who
was shot to death the night of May
29.**Woman Fired Shot**
Testimony at Smith's trial was
that the actual shooting was done
by Mrs. Maude Lowther, 22, whom
Smith wanted to marry.Mrs. Lowther is to be tried on a first
degree murder charge next week.On the night of May 29, Smith
took Mrs. Lowther into the country
near Ahtabula and told her to get
into a field to a lonely par-
allel road, and wait for him to de-
liver his wife to her.Two hours later, Smith brought his
wife and their two small children
to the appointed place. Mrs.
Lowther jumped in front of Smith's
small motor truck, told him to get
behind it, and then jumped on the
running board and fired the fatal
shot. Mrs. Smith was holding her
six-month-old baby in her arms
when she died.**Claims Held Up**
Then Mrs. Lowther retraced her
way across the field, while Smith
took the two children to a filling
station and told employees there his
wife had been shot by a hold-up
man in an auto.Ahtabula county and city officers
investigated at once and when they
were unable to find tracks of the
robbers' automobile, Smith was
accused. An hour or two later he
signed a written confession that "a
woman" had done the shooting.Judge Charles R. Sargent im-
mediately sentenced Smith to die
in the electric chair at Ohio peni-
tentiary October 29. Smith showed
no signs of emotion.4-H Club Join In

CHICAGO, July 19.—A withering
heat fastened itself upon America
today.
From great lakes to gulf and from
ocean to ocean, the continent
cooked. Three figure temperature
readings were common. Ninety de-
grees or better were recorded in
virtually every section.On the basis of official govern-
ment figures, the average maximum
temperature for the United States
yesterday was 90.5.Out of 94 government weather
bureaus reporting to the Chicago
forecaster, 54 had temperatures of
90 degrees or better. Only nine of
the entire number reported maxi-
mums under 80.The nation's granaries, baked
hard by the persistent sun, faced
drought. Livestock in many places
saw green pastures turn russet and
die. The danger of corn being fired
in the field was felt in Iowa.A few deaths occurred—sun
stroke, prostrations and drownings;
but the number was not large con-
sidering the extent of the heat
wave.Beaches, especially those near
large cities, swarmed with people.
In Chicago, where an estimated
quarter of a million took to the wa-
ter to shake off the heat, Lake
Michigan had a temperature of 68
degrees.A table of representative official
temperatures, taken from the fed-
eral forecaster's chart, reveals how
widespread was the heat yesterday.

upon a quotation from Henry Van
Dyke, former professor at Prince-
ton university. Clear thinking, ac-
tion on honest motives, love of
fellowmen and trusting in God,
were the points most emphasized by
the speaker.The invocation was delivered by
Rev. Sidney Mayer, and the bene-
diction by Rev. Walters of this city.
Piano selections were furnished by
Miss Betty L. Moss with a vocal
solo by Miss Lucille Haddon.Prizes were awarded for the three

obtained from the heat which
yesterday sent the mercury past

ejected for a width and dis-

will be installed on various
streets and will be changed
from one to another every day.Announcements concerning
streets on which the apparatus
will be placed will be made by

City This MorningPromptness of the Salem fire de-

residents on two occasions this
morning.Two alarms were sent into the
department, both from industrial
plants. The first, at 7:45, was from
the building formerly occupied by
the American Steel and Wire com-
pany, and the second about 8:50,
at the Mullins Manufacturing cor-
poration main plant.No fire occurred at either place,
alarms being set off accidentally.
At the nail mill building a line-
man cut the alarm wire, causing
the fire bell in city hall headquar-
ters to ring while an automobile,
colliding with a telephone pole in
front of the Mullins plant, is be-
lieved to have been the cause of
the second.Trucks were sent to each place

RE-APPORTIONMENT

With the 1930 census population figures of 25 of the 48 states already published, leaders of the house of representatives and political leaders in the various states are beginning to speculate as to just what changes will result when the lower legislative group is re-apportioned in 1933 following the 1932 elections.

California famed for its efforts to make itself the leading state of the union seems assured of realizing a portion of this ambition on the basis of published returns which gave the Pacific coast state eight more representatives. This will please civic and political leaders of that state, not only because of the greater representation provided in the country's chief legislative body, but also because such material things as unerring and easily understood figures of population growth can be used to demonstrate the so-called magnetic drawing power of that state's possibilities for people who live in "more unfortunate" sections of the country.

Although California's increase in representatives in the house stands out as the leading factor in figures thus far published, other and important changes are in prospect for other states.

In the south and southwest changes are indicated in but few states, while many states in these same sections are expected to lose one or more of their representatives. A decline is also predicted for such great states as Pennsylvania and New York. Next to California, strange as it may seem in view of the climatic differences and comparatively lessened chamber of commerce appeals, Ohio and Michigan are expected to gain the most seats. A gain of three is indicated for Ohio, while Michigan is expected to have her representation increased by four. Such a prediction not only indicates the rapid and remarkable growth of the industrial life in these states, but also tends to prove the veracity of forecasts which show the easing westward of the population center of the nation.

Another interesting factor which appears on the basis of returns now public reveals itself in the failure of the very argument that prevented the customary reapportionment in the house following the 1920 census. At that time, it was claimed that a re-apportionment of members would be unfair to the great agricultural states in that it was taken too soon after the war for the population to have become re-stabilized as between city and country districts. Yet in the 1930 census we find that such agricultural states as Kansas, Nebraska, North Dakota, Indiana, Iowa and Missouri are all destined to lose one or more of their representatives. This fact is not at all surprising in view of the well known shift of the population toward the urban centers, yet it is important in its revelation of how a successful argument proved a fallacy.

When the complete census figures for all the states are published it will be interesting to note just how great the re-apportionment will be in the house. The change will not only affect the individual states, but it will have a marked influence in the electoral college and it will presumably be felt in the national political conventions.

PATRIOTIC BUT FORGETFUL
Apparently a great many of the people who bought Liberty bonds were inspired more by patriotism than by a desire to put their money in a sound investment.
At any rate, the treasury department announces that buyers of such bonds are losing about \$1,000,000 a year in interest through failure to redeem bonds on which interest has ceased. More than \$37,000,000 worth

of federal securities which have ceased to bear interest are still in the hands of investors.

Most of them, probably, lie in various safety deposit boxes, half forgotten by their owners. If you happen to hold such bonds, it would be a good idea for you to redeem them and put your money where it can earn an income for you. It is startling to think that \$37,000,000 is lying idle simply because of carelessness.

The president of the German reichstag has ruled that members may debate in their shirt sleeves during hot weather. That ought to produce some real legislation.

What Others Say

A FRIENDLY VISIT

The American battleships, Arkansas, Florida and Utah, under the flag of Rear Admiral Cluierius, put into Kiel the other day for an informal 96-hour visit. This state-ment may not sound particularly exciting, but the event itself was of considerable significance because it was the first postwar stop of an American fleet at a German port, and it was featured by the presence, of midshipmen from the Annapolis academy, who are on a training cruise.

Only a short time ago such a call on a German port by vessels of the United States might have been a rather painful event, and might have had a tendency to retard rather than hasten the healing of the wounds of war. But at Kiel the guests were received almost with open arms and were genuinely welcomed. The band on board the German flagship present played "The Star Spangled Banner," and the band of the Arkansas responded with the German national hymn. The admirals and local officials exchanged visits, salutes were fired, and the local newspapers indicated pleasure over the opportunity afforded to return the "generous hospitality extended regularly to German ships in American waters since 1925."

The meaning of the episode is clear and pleasing. The passions engendered by the World war are passing away as far as relationships between the United States and Germany are concerned. Indeed, to a large extent they have quite disappeared, the process of recession being furthered by the sportsmanlike effort of the Germans to rehabilitate themselves economically and politically without complaining or whining, and by the practical wisdom of her statesmen.—Detroit Free Press.

Highlights Of Ohio History

BY J. H. GALBRAITH

Those who travel by automobile from Columbus to Sandusky going by way of Delaware Bucyrus and Bellevue, go over the route of the first line of communication between the state capital and Lake Erie—the Columbus and Sandusky turnpike. The legislature created a corporation to build and operate this road on Jan. 31, 1826, capital stock of \$100,000 was authorized, which might be raised to twice that sum. There were 26 incorporators, of whom John Kilbourne, A. D. McDowell, Henry Brown, William Neil, Orange Johnson, Oris Parish and Robert Brotherton were Columbus men. Congress subsidized the enterprise by giving it 31,840 acres of land along the line. The requirement was that the road should be constructed of "stone, gravel, wood or other suitable material," and while it was expected that a stone road would be built, the company availed itself of the loophole and made it only of earth rounded up with drainage ditches at the side. The estimated cost was but \$81,080 and the actual cost only \$74,376, or about \$700 a mile.

As may be imagined, it was not much of a road, and there was immediate complaint from those who were required to pay toll for using it. The state appointed an inspector to report on it, but he found that the road was all right. Denunciation of the road and its owners redoubled at this, and the legislature reflected public sentiment in an act of Feb. 28, 1843, which forbade the collection of tolls on it. At the same time, a commission was appointed to arrange for the building of a pike on the route by the states, and, with this, wrathful people all along the line fell upon the tollhouses and gates and tore them down.

The company appealed to congress for relief, but the only result was an investigation as to how the company had used the subsidy funds coming from the donation of lands. In 1847 the state directed Atty. Gen. Stanberry to inquire into the matter, but he found that the company had not been treated right. The company's request at this point for permission to sue

HEALTH

WATCH SWELLINGS

Fortunately, serious cases of edema are not common. But the importance of the disease must not be overlooked. It is a condition in which there is a swelling of some part of the body.

There is an increased amount of fluid in the tissues. It is, in a sense, a kind of dropsy.

The underlying cause must be found. So far as the medical profession is concerned, it appears to come from some change in the condition of the blood, and, in consequence, over-filling of the blood vessels.

The walls of the blood vessels are very thin, and to some degree porous. In the congested area, because of the over-filled vessels, the less dense portion of liquid serum is forced or squeezed through the walls. It lodges in or between the tissues, causing them to swell and harden. The symptoms depend on the quantity of the fluid.

There are various diseases that have edema as a symptom. Persons who have heart or kidney trouble usually have it. In certain stages of Bright's disease, the puffiness appears under the eyes, or in the legs or ankles.

Those who have anemia, with low blood pressure are apt to have edema. It often occurs during pregnancy and it is a symptom in hardening of the arteries, as well as in neuritis, neuralgia, or other diseases of the nervous system. Indigestion may bring on hives, with considerable edema.

Serious Cases Not Common
Edema of the lungs is a serious thing. It is usually present in pneumonia. There is a marked increase in the blood supply in the blood vessels of the lungs. This congestion is the first step in the process of edema. It is then that a leakage of fluids into the air cells of the lungs takes place.

If all the air cells of the lungs were to be filled suddenly with this fluid, death would be as immediate as in drowning. However, such cases are not common.

Even if the attack is mild, the symptoms may be severe. There is a sense of tightness in the chest and the patient pants for breath. There is coughing and a frothy expectoration. The cough becomes constant and blood may be expelled.

It is natural that the patient should be frightened and excited. This adds to the congestion. Pale-ness, old perspiration and weak-

pulse may be observed. Noisy breathing is a symptom in such a case.

In cases of simple edema, when the swelling of the lower limbs is troublesome, rest and elevation of the limbs is likely to give some relief. Sweating, hot baths and certain drugs are employed by the physician.

Even if the condition does not cause much discomfort, it should not be neglected. Every case should receive good medical care.

The Stars Say

For Sunday, July 20

Sunday's horoscope shows the possibility of a short journey or some kind of minor change, but otherwise the energies may be turned to cultural or mystical things, with the mind disposed to

be introspective and the general demeanor, even in social and domestic contacts, serious or solemn. There may be a pleasant recognition from elderly persons or institutions.

Those whose birthday it is may be prepared for some sudden change or journey of minor importance during the year, but accompanied by some small financial anxieties. The mind may be active in plans and schemes and disposed to be profound and practical. Benefits from elderly persons are in prospect. A child born on this day may be disposed to many plans, constructive and practical, although of a rather utopian or visionary nature. It may be fond of change but should benefit through elderly persons and institutions.

For Monday, July 21

Monday's astrological forecast is for great activity and initiative, with affairs stirring or seething in directions. The faculties and energies will be high pitched and vol-

atile and should be properly and calmly directed into conservative channels, lest they incite the plans and enterprises to a place of toppling over. With judicious handling here are excellent prospects of unusual success and achievements, but be cautious in launching new projects.

Those whose birthday it is may be prepared for a year in which the faculties and energies are stimulated up to high adventure and initiative. But unless these be calmly and conservatively managed they may overtop themselves and fall of their own impetus. It is a time of splendid opportunity for achievement and progress but new ventures should be enterprising, adventurous, with excellent equipment for success and high attainments in many directions.

WALTER P. CHRYSLER

PRESENTS TWO NEW STRAIGHT EIGHTS

All progress is change.

Only by change do man and the factors of his civilization move from the lower to the higher state; from the cruder to the finer development.

Our Chrysler engineers devote their lives to study, to analysis, to experimentation. And out of this constant searching and trying come the knowledge, conviction and decision that lead to progress.

In announcing two complete lines of New Straight Eights, in addition to our lower-priced Chrysler Sixes, we now register our most important change and progress—all designed, all worked for, all created to give the world better and more satisfying transportation.

In our progress there is no departure from fundamental principles.

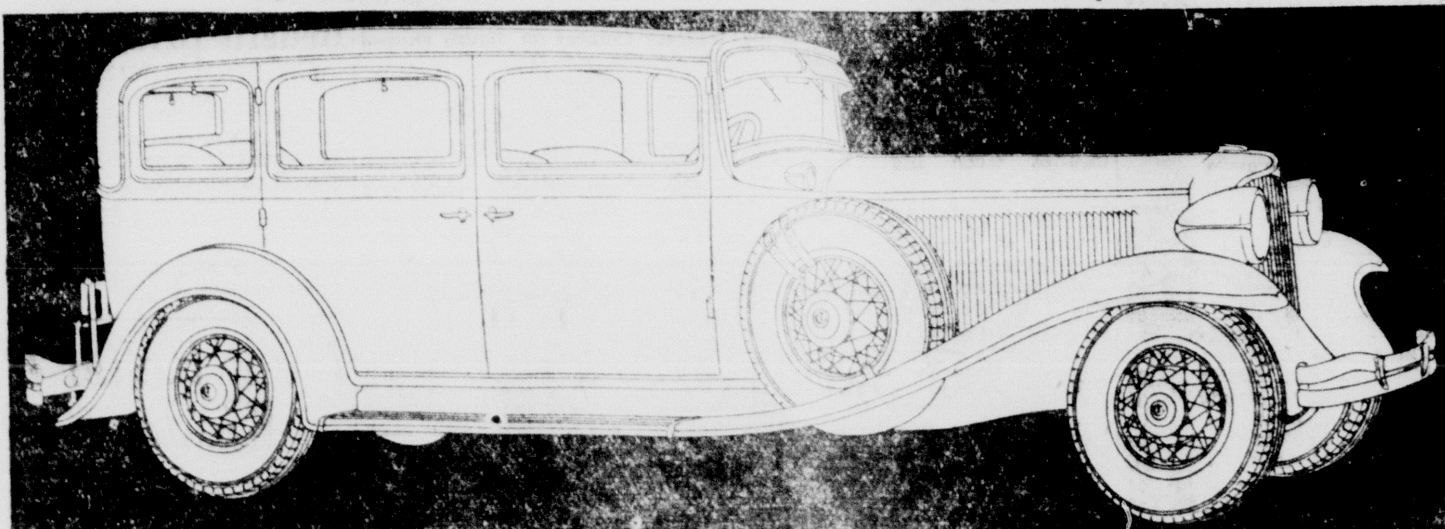

To maintain public approbation, we must give always finer, more dependable, more dynamic car performance—must offer always greater value, as well as cars better suited to the needs of modern transport.

Thus, our latest Chryslers—the new Chrysler Eight and the new Chrysler Imperial Eight—containing as they do, outstanding engineering and style improvements—are, we believe, milestones along the course of automobile progress.

We are proud and eager to submit these cars to the inspection and test of the public.

NAMESAKE FAILS TO TANGLE VOTE

Norris Wins Out Because Petition Of Other Was Filed Late

(By The Associated Press)

LINCOLN, NEB., July 19.—George W. Norris, the insurgent Republican leader in the United States senate, has won out over George W. Norris, the grocery man from Broken Bow. Reversing the decision of Secretary of State Frank Marshall, Chief Justice Charles A. Goss of the state supreme court, ruled last night that the grocer's name should not appear on the Republican ballot for United States Senator in the Aug. 12 primary as his filing did not reach the secretary of state's office until two days after the time limit had expired.

The barring of the grocerman had no effect, however, on the decision of Senator Gerald P. Nye, chairman of the senate's campaign investigation committee, to inquire into the filing of the Broken Bow man's name.

Senator Nye has summoned witnesses for the opening of the inquiry this morning in Broken Bow. Norris the grocer was missing, however, but Nye's investigators were looking for him in three states with subpoenas.

Health and Happiness

Too Lightly Regarded?

Despite the great mergers and international financing so common today, the gentle art of proper, healthy, lengthy and joyful living remains the biggest business on earth, John Clarence Fung declares in Hygeia Magazine, in an article directed to business men.

Many men of affairs display intelligent interest in their health, but there are hundreds who imagine that they enjoy a privileged immunity against the infirmities of fundamental living habits. One finds bed manufacturers who use beds as little as anybody; producers of health foods who regularly eat anything and everything until their capacity fails; jobbers of gymnasium equipment whose personal experience is limited to an infrequent stroll over a golf course; and resort hotel men whose fresh air is obtained only when they retire at night, this health worker charges.

Too much food, too little exercise and too little sleep are constantly taking their toll from prosperous business men. Heart disease, cancer and diabetes attack a staggering number.

This situation could be changed overnight, Doctor Funk insists, if business men would use the simple expedient of having annual physical examinations. Early diagnosis is the secret in combating many conditions that insidiously gain headway.

THE HOME KITCHEN

By Jeannette Young Norton

"Another clam cocktail, please" ordered the business man at the luncheon table. "And that," said he, "is my idea of a good lunch on a hot day—plenty of chilled clams in a peppery sauce."

We're accustomed to regard these fish cocktails merely as an entree, but those who are fond of the dish can usually enjoy more than the small service in this form. An ample dish, instead of a small one, will be tempting to the appetite, and from the standpoint of nourishment, will be an adequate lunch in hot weather when one feels hungry, but most food looks too much like work.

The regulation cocktail sauce for clams or oysters or shrimps is equally good for many other kinds of fish. Crab, lobster, tuna, or in-

stead of variety of canned fish, or flaked boiled fish properly chilled, can be served in the same manner.

Cocktail Sauce
4 tablespoons chili sauce
1 tablespoon grated horseradish
1 teaspoon lemon juice
1/2 teaspoon salt
1/2 teaspoon Worcestershire sauce

The important thing is to have all ingredients well chilled—the fish as well as the sauce. Serve with crisp crackers—saltines, toasted water crackers, or hard wheat crackers. Either the fish may be moulded in little glasses topped with sauce and all surrounded by cracked ice for each service, or the sauce may be left in the glass in the center of a shallow bowl, embedded in ice, and the fish piled on shells, or in another glass cup.

GIRL KILLED IN CRASH ON LAKE

Speedboat Runs Into Big Yawl; Claim Lights Were Missing

CHICAGO, July 19.—A saucy speedboat, the "Whoopie," carrying a party of six young people and a pilot, crashed amidship into the 14-ton yacht, "Scarab," off the Rogers park beach in Lake Michigan last night, catapulting Miss Betty Ayres, 18 years old, to her death.

Six other members of the party, as well as the four men aboard the yacht, reached shore safely, although Benjamin Marshall, Jr., 21-year-old son of the wealthy Wilmette architect, was severely injured.

Aboard the "Scarab," an auxiliary yawl whose home port is Larchmont, N. Y., was the craft's owner, George M. Pulver, wealthy Washington mortgage broker, Freeman Higgins, New York, and a crew of two.

The speedboat had been rented by young Marshall and was piloted by Barton Webster. Aboard, in addition to Miss Ayres and Marshall, were Miss Dorothy Marshall, 14; William J. De Reimer, 18, son of Dr. Albert De Reimer, Robert Shotwell, 16, son of Alfred H. Shotwell, millionaire manufacturer; and Miss Janet Schreinn.

Members of the Marshall party said the Pulver yawl carried no running lights. The collision occurred about half a mile off shore.

Pattern 1989 features delightfully of shantung, dot crepe, kasha, flannel or linen. A plain color, light or dark shade, or a print might be chosen for equally good results. The cape may be attached permanently or may be snapped on. Buttons add a chic touch.

May be obtained only in sizes 14, 16, 18, 20, 22, 24, 26, 28 and 30. Size 16 requires 3 1/2 yards of 39 inch material.

Courage drives out the fear from one's soul. Courage clearly sees the goal and forgets the rough path that lies between. No one has been the inspiration of such mighty courage as great as the Creator. He has made His people lead on amid dangers and defeats. Courageous men as Luther, Wesley and Knox truly forged ahead as God was with them. Moses would have timidly quit, had not he felt the presence of the Lord. Courage is ours, only as we link our lives with our omnipresent Lord.

Morning worship, 11, sermon, "Deep Water Fishing."

Little faith is required when we can see our way clearly ahead. We would find very little use for our God if life only went as far as the eye can see. Christ would urge us to be unafraid even in the deep waters of life. He would urge us to live and labor where the element of faith is an important factor. A child's life may be spent in the shallow waters. Mature Christians should not hesitate to launch into the deep and unknown waters. If the demand comes from Christ, let us take Him as our companion.

The corner stone laying service will be held next Sunday, July 27, at 3 p. m. Rev. H. C. Brillhart, D. D., of St. Paul's Lutheran church of Leetonia, will deliver the address.

Second Division Teams Wage Hot Battle In National League

Chicago Cubs Advance Towards First; Defeat Brooklyn Dodgers 6-2

Almost unnoticed amid the tumult and shouting over the Brooklyn-Chicago battle for the first place in the National league, there is a stirring bit of baseball warfare going on in the second division of the circuit with Pittsburgh, Boston and Cincinnati involved in a three-way struggle for the best position.

Pittsburgh's Pirates are on top of the second division today, holding fifth place by a half game margin by virtue of yesterday's 12 to 4 triumph over the Boston Braves. Cincinnati, victorious over the humble Phillies, 13 to 6, is still in seventh place but only a half game behind the Braves.

Spencer Hurls Win
Glenn Spencer pitched the Pirates to their third straight victory in Boston, allowing only nine hits, of which three went to Welsh, Adam Comorosky, Pie Traynor and George Grantham provided most of the hitting which came in the

MANDELL RICHER DESPITE DEFEAT

Former Champion Receive \$15,382 As Share Of Fight Proceeds

NEW YORK, July 19.—Sammy Mandell was \$45,382.12 richer today although losing his lightweight boxing title to youthful Al Singer at the Yankee stadium. That amount represented 35 per cent of the net gate receipts which totaled \$129,663.36.

Singer's share of the gate was 15 per cent and amounted to \$19,449.48. The gross receipts for the fight, however, were disappointing, being only \$162,388.33. Deductions of the state and federal taxes left the net receipts far below the expectations of Madison Square Garden officials.

The Garden said today that the official paid attendance was 27,472, which was considerably below the original estimate.

JIMMY FOX, Athletics.—Pounded Whitesox pitching for 24th and 25th homers, and double, accounting for eight runs.

"The Time to Push Sales and Advertising" said Roger Babson, the other day, "Is when business is irresolute and inactive."

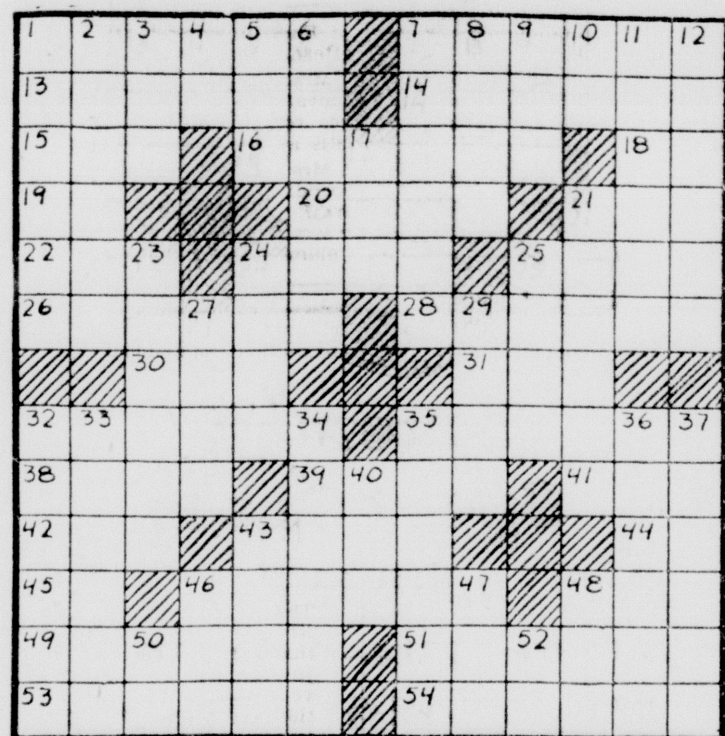

Manifestly it is agreed that business is not in a "boom" state, although better than is generally realized or appreciated and that advertising has its superlative opportunity to prove its ability when intelligently and effectively applied to act as one of the factors in the restoration of business stability and future prosperity.

Now is not the period for the hopeful waiting of the "opportunistic" but one for the hard thinking, working, intelligent effort of the builder of business—constructive effort with confidence and without over-optimism.

SEVERE TYPHOON EXACTS TOLL IN PACIFIC ISLANDS

Thirty Are Known Dead
With Possibilities
Of List Growing

(By The Associated Press)
TOKYO, July 19.—Thirty dead, scores missing and injured, and immense property damage was the known toll today of the typhoon and rainstorm which swept over the Loochoo and Kiusiu islands in the southern part of the empire yesterday.

Thousands of persons were made homeless when the storm, traveling 100 miles an hour, destroyed hundreds of dwellings.

The wind swept over the islands, crossed the straits and roared into Korea, leaving destruction in its path.

A train was wrecked and 20 persons injured, and reports said a village of 300 was buried in a landslide loosened by the heavy downpour.

On the water the casualties were believed far greater than on the islands. Hundreds of boats were smashed and sunk, some carrying their crews to death.

The death toll would have been far greater, it was believed, except for the fact warnings of the storm's approach had been broadcast the previous day.

Dispatches from Pusan, Korean Seaport, said the storm struck there at noon, leveling homes and causing panic before continuing inland undiminished.

Electric plants were crippled and communication interrupted. Making it difficult to learn the extent of the storm's fury.

Most transportation systems were at a standstill because landslides and covered roads and railway tracks.

Salem Man Charged With Neglect Of Duty By Wife In Action

LISBON, July 19.—Lillie Ware, 809 Broadway, Wellsville, through her counsel W. A. O'Grady has filed a nation for alimony in common pleas court against her husband Alvie J. Ware, a carpenter residing with his mother at Salem, charging him with gross neglect of duty.

Elizabeth J. Miller, in her divorce petition filed by Attorney Charles C. Connell has set up that her husband Clifford H. Miller has been guilty of wilful absence for over a period of three years, and that he is now located at Texarkana, Tex. The petition also relates that Miller has been unfaithful, and the ground of gross neglect of duty is set up.

They were married Jan. 18, 1922. The plaintiff asks the court to restore her to her maiden name, Elizabeth J. Green.

Next Week's Features

The principal feature scheduled for showing at the theaters here next week is "On the Level," starring Victor Meaglen, Fifi Dorsay, William Harrigan and Lilyan Tashman. It is a human, laugh-provoking vehicle that concluded a three-week run at the Roxy theater in New York, Wednesday.

"On the Level" opens the week's program at the Grand while the state shows "Chasing Rainbows," with Bessie Love, Charles King and Jack Benny for three days starting Thursday.

THEATER OWNER FINED IN COURT

Sunday Operation Brings Decision By July In Steubenville

STEBENVILLE, July 19.—George Delis, manager of the Warner Brothers motion picture theater here, was found guilty on charges of operating the theater on Sunday in violation of the Ohio blue laws, by a jury in common pleas court here.

Sentence was deferred by Common Pleas Judge Jay H. Pasley after counsel for Delis served notice that an appeal would be taken citing alleged error in the charge of the court.

The court told the jury, defense attorneys said, that they "had a clear case and could do nothing except return a verdict of guilty."

In the meantime, county authorities said they had abandoned plans for enforcement of the blue laws here on Sunday. The motion picture theaters will be closed pending the appeal operators said.
